Screened Date: 12-23-2017 DOCID: 32990021

Dear Friends: INTERPLANETARY SESSION NEWSLETTER.

We have not issued a Newsletter since May 1, 1956 because we had no Space news which we could consider authentic. However, now we have some good news to pass along to you.

LECTURE - by George Van Tassel and Dan Fry, in Ballroom of Hotel Diplomat, 110 West 43rd Street, New York City, 8 p.m. Thursday, June 20, 1957. Donation $1.25.

George Van Tassel operates the Giant Rock (California) Spaceport and Airport and has been host at four annual Spacecraft Conventions. He is the author of two books: I Rode A Flying Saucer, and Into This World and Out Again. He is also the publisher of Proceedings magazine, usually issued monthly. Back issues of Proceedings have been reprinted in one volume. Address George Van Tassel, P. O. Box 419, Yucca Valley, California.

Dan Fry is the author of The White Sands Incident. In this book he tells the story of a trip which he made in a flying saucer from a desert spot on the White Sands Proving Ground in New Mexico to New York City and return, in 32 minutes.

Dan Fry and another gentleman are now enroute to New York by automobile. George Van Tassel and Art Aho will arrive in Mr. Aho's plane. They all plan to be in New York City at Hotel Diplomat on June 17. They will probably be heard next week on Long John's program on Radio Station WOR, from 12 midnight to 5:30 in the morning, nightly except Sunday.

This letter will not reach you in time to sight flying saucers over New York on the night of June 13, from 10 p.m. to 1 a.m. But there will again be full scale operations of flying saucers over all American areas on July 1. This will be in three phases, as follows: New York areas, July 1, 9 a.m.; Washington, D.C. areas at 9:25 a.m.; general North American areas, after 9:25 a.m.; Central American areas, 9:30 a.m.; South American areas, 9:35 a.m. Second phase: Same areas as above, beginning at 12 o'clock mid-day, July 1. Third phase: Full scale operations over all American areas beginning at 7 o'clock on the evening of July 1. The above information has been supplied by George King, editor of Cosmic Voice, 88 The Drive Mansions, Fulham Road, London S.W. 6. Also, please note that George King has also published back issues of Cosmic Voice in one volume, price $1.00 plus postage. This is beyond doubt the finest "buy" of saucer messages that we know of. George King is considered the best telepathic contact which the space people have, although George Van Tassel is the finest we have in America.

Margaret Storm has been assigned to certain work with the Space People, as follows: She is writing a book - Return of the Dove - a story of the life of Nikola Tesla, scientist, and the part his inventions will play in the New Age. Much of the data for this book has been supplied to Mrs. Storm through transcripts received on the Tesla set, a radio-type machine invented by Tesla in 1938 for Interplanetary Communication. Tesla died in 1943 and his engineers did not build the Tesla set until after his death. It was placed in operation in 1950 and since that time the Tesla engineers have been in close touch with space ships. The Space People have visited the Tesla engineers many times, and have told us that Tesla was a Venusian, brought to this planet as a baby, in 1856, and left with Mr. and Mrs. Tesla in a remote mountain province in what is now Yogoslavia.

Declassification authority derived from FBI Automatic Declassification Guide, dated May 24, 2007

A biography of Tesla was published in 1944. It can pro[illegible] from your local library or bookstore. It is entitled Prod[illegible] John J. O'Neill, then science editor of the New York Herald [illegible] Mr. O'Neill has since died. This book gives no information at [illegible] Tesla's connection with the Space People, a fact which was not revealed until 1950. The book also gives many wrong impressions of Tesla, because Mr. O'Neill's occult knowledge was limited. However, it is well worth reading because it gives much technical information about electrical engineering which Mrs. Storm will be obliged to omit in her book because she has such an abundance of material to present.

It had not been intended to mention Mrs. Storm's work at this time, but the public will be offered a "sneak preview" in a small mimeographed resume of the book, according to publication arrangements now being made. This development came about unexpectedly because of the extremely critical condition of world affairs, engendered by the continuance of nuclear tests, and the fact that Mrs. Storm could not possibly have the finished book ready for the publishers before July 30, even with the aid of a small miracle. This material is now being presented as a paper before certain California groups where the announcement of the Tesla news was received with tremendous enthusiasm.

Mrs. Storm will present the material to certain small groups in the New York area within the next few weeks, and probably Space Groups in other sections will also co-operate by offering it to their members. Our world situation is not hopeless by any means, although the Space People bluntly inform us that as a race we are too "lazy"; spiritually we must become more potent if we are to hold this planet together against the efforts of the dark forces to blow it to bits.

So let us look for the good news. Look for good news from England where the messages of George King have at last reached the scientists, the press, and the Queen. Look for good news from Calvin Girvin of California, who is one of the best space contacts in this country.

And look for more good news at the Van Tassel-Dan Fry lecture on June 20. We hope to see all of you there. The ballroom seats about 1200, and we must put forward every effort to get behind these speakers and support them.

Then on July 1 let us keep our eyes on the skies! The Space People are going to make every effort to give all of us a chance to see the ships. However, if the military uses jets in large numbers to chase the Space Ships, we may not see them. As citizens you can urge the government to be more cordial to our visitors.

Now for some unpleasant news. This has been transmitted from Mars Sector 8, through George King in London. We have to begin paying off our karmic debts in the form of disease, which cannot be abated unless we discontinue the nuclear experiments. However, to help all of us through the coming period of epidemics the Space People have placed four space stations in orbit around the earth. They will start magnetizing the earth at midnight on July 21. Through meditation we can absorb these healing rays. The Martians have clearly indicated that they are just about "fed up" with our depravity on this planet; apparently even Space People can become impatient!

Sincerely,

Margaret and John Storm
